## 2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

College examination committees, in conjunction with all the departments, supervise and coordinate all internal assessments under the CBCS. Regular tutorials, project work, class tests and continuous evaluation processes complement mid-semester examinations, and the committees work alongside the departments to ensure that evaluation and submission of marks are completed within a stipulated period of time. During the COVID-19 lockdown period, many departments switched to Google Forms as a primary mode of examination for class tests and mid-semester internal assessment exams, where students got copies of their answerscripts in their individual emails. Some departments chose submission of project work over email in the form of pdfs. The departments of the college pursued continuous evaluation, as required by CBCS, by conducting regular class tests, which were followed up with do-at-home projects. The scripts of class tests were shared with the students, but since internal assessment is a component of the university's credit requirements under the semester system, the marks for it were not disclosed to the students.

During the COVID-19 lockdown period, all

departments took the extra effort to contact students on an individual basis so that none were left out in the examination process. • The college sent out bulk SMS messages to all students with information on the semester exams, shared information on student groups on Telegram and Whatsapp. • The college also updated links on the college website on a regular basis explaining processes of online submission.

**2.5 - Evaluation Process and Reforms**

**2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and**

mode. Write description within 200 words.

College examination committees, in conjunction with all the departments, supervise and coordinate all internal assessments under the CBCS. Regular tutorials, project work, class tests and continuous evaluation processes complement mid-semester examinations, and the committees work alongside the departments to ensure that evaluation and submission of marks are completed within a stipulated period of time. During the COVID-19 lockdown period, many departments switched to Google Forms as a primary mode of examination for class tests and mid-semester internal assessment exams, where students got copies of their answerscripts in their individual emails. Some departments chose submission of project work over email in the form of pdfs. The departments of the college pursued continuous evaluation, as required by CBCS, by conducting regular class tests, which were followed up with do-at-home projects. The scripts of class tests were shared with the students, but since internal assessment is a component of the university's credit requirements under the semester system, the marks for it were not disclosed to the students.

During the COVID-19 lockdown period, all departments took the extra effort to contact students on an individual basis so that none were left out in the examination process. • The college sent out bulk SMS messages to all students with information on the semester exams, shared information on student groups on Telegram and Whatsapp. • The college also updated links on the college website on a regular basis explaining processes of online submission.

Monthly meetings with the academic committees ensure that a continuous process of evaluation is adhered to, while structured work patterns of all committees, drawing from the experience of earlier work, adhere to the IQAC's plans for incremental improvement. The feedback pattern has been gradually shifted to the online mode. Apart from its focus on strengthening teaching-learning, and encouraging holistic education, the IQAC regularly undertakes programmes on
